

## ENERGY CODE CERTIFICATION

Updated October 5, 2017

This form is to certify that the structure listed below complies with the following requirements adopted by the Texas State Conservation Energy Office. **Codified in 34 TAC §19.53.** The following structure has been reviewed and inspected for compliance with the 2015 / ASHRAE International Energy Conservation Code.

When the structure does not actually comply with the Energy Code it shall be grounds for the City of Wylie to suspend or revoke my ability, as well as the ability of the company I represent, to certify that any future structures comply with the Energy code.
