

**CERTIFICATION OF HOUSE-POOL
PROTECTION DEVICE INSTALLATION**
Updated October 26, 2015

This document provides the homeowner to certify that the following protection device has been installed at a particular address.

I certify that the following protection devices are installed between all doors leading from the house and garage into the pool area.

All doors with direct access to the pool are equipped with an alarm which produces an audible warning when the door and or/ its screen, if present, are opened. The alarm is listed in accordance with UL 2017. The audible alarm will activate within seven (7) seconds and sound continuously for a minimum of thirty (30) seconds after the door and/or its screen, if present, are opened and is capable of being heard throughout the house during normal household activities. The alarm will automatically reset under all conditions. The alarm system is equipped with a manual means, such as a touchpad or switch to temporarily deactivate the alarm for a single opening. Deactivation will last for not more than fifteen (15) seconds. The deactivation switch shall be located at least fifty four inches (54") above the threshold of the door.
