Signed by, Qualified Person

Print Name, Qualified Person

Owner and contractor, who are executing this agreement, request the use of temporary electrical utilities for construction and testing of equipment. We understand that this in no way gives permission to occupy or use for storage purposes any building or portion thereof unless all permits on the building or portion to be occupied have been inspected, approved and a certificate of occupancy issued. We further understand that the temporary electrical utilities may be disconnected for any violation of the building code. The general contractor and owner hereby assume responsibility for any violation of any ordinance by any sub-contractor.

Temporary electrical permits are in force for ninety (90) days only. If more time is required to complete the building, a new application for temporary utilities shall be submitted by a licensed electrical contractor and be accompanied by the temporary electrical permit fee.

The undersigned hereby severally agrees to indemnify and hold harmless forever the City of Wylie, its officers and employees, from any and all claims or causes of action alleged to have been caused directly or indirectly by the temporary use of the utilities for which this application is made.

We hereby agree to abide by all provisions of the building code and this agreement.
